Bogotá, Colombia

PROFILE

I'm a Software Engineer with **3+ years of experience** developing software for various companies and institutions. I specialize in **Fullstack development**, with expertise in both **front-end and back-end technologies**. I'm a highly motivated and goal oriented professional focused on solving problems and building solutions that make a real difference.

WORK EXPERIENCE

Senior Analyst Engineer - Kin and Carta

JANUARY 2023 - MARCH 2024

- Worked over fullstack development with **microservices** architecture using **Java, Spring Boot, Kubernetes, OCP Cloud**, and Oracle DB, delivering highly available solutions.
- Developed 2 new features for a banking services platform, using **SCRUM** practices, with tools like **Spring Boot and Angular 13**.
- Achieved a **90%** migration of legacy systems to modern microservices/cloud-based environments, improving maintainability and scalability.
- Enhanced backend functionality with **Java, Spring Boot, JWT, and Oracle DBMS**, boosting system performance by **35%**.

Java Developer - Globant Colombia

NOVEMBER 2021 - APRIL 2022

- Contributed in fullstack development using a microservices architecture based on **Node.js, Docker, Kubernetes, and MySQL**, increasing system scalability by **40%**.
- Implemented new features following the **SCRUM** methodology for an insurance management platform, using **Spring Boot, AWS (EC2, Secrets, Buckets), and Angular 10**.
- Collaborated with cross-functional teams to improve code quality and reduce deployment time by **15%**.

Junior Software Developer - Bex Technology S.A.

NOVEMBER 2019 - FEBRUARY 2021

- Developed **front-end** features for websites and platforms using **MVC** design patterns and technologies such as AngularJS, **Angular 10+**, **HTML, CSS, Bootstrap, and JavaScript**.
- Managed data persistence using **SQL Server and Oracle DBMS**, improving data retrieval processes.
- Enhanced platform functionalities by integrating **Azure and SharePoint**, resulting in a **30%** increase in operational efficiency.

SKILLS

- HTML / CSS
- Bootstrap
- Angular 10+
- JavaScript
- Git / GitHub
- Docker
- Kubernetes
- SQL

(Server, MySQL, Oracle)

- Springboot Java
- NodeJS
- Python
- Azure

I SPEAK...

- English | B2 Intermediate
- Spanish | C2 Native

WHAT AM I KNOWN FOR?

"His attention to detail is next level and made it so easy breezy to work with him as his product owner".

Brittany Banister
Product Owner

"Esteban's proactivity and responsiveness allowed him to thrive within the team and become a reliable asset".

Christopher Gibson
Dev Team Leader

EDUCATION

Pontificia Universidad Javeriana

Systems engineering and computing

2018 - 2024

- Developed software projects using **design patterns** and software architecture styles, such as **MVC** and **microservices**, to create scalable and maintainable solutions.
- Learned and **worked with DevOps and CI/CD** tools like **Git**, **GitHub**, **GitHub Actions**, Jenkins, and **Docker**, streamlining development workflows and automating deployment processes.
- Participated in **volunteer work**, teaching technology-related subjects at public schools, inspiring students to pursue careers in **STEM fields**.

Servicio Nacional de Aprendizaje - SENA

Systems technician

2014 - 2015

- Developed software from requirements analysis through design to implementation, ensuring successful deployment in real-world environments.
